place of installation		
number of units		
<b>Processdata design</b>		
process		
volume flow rate standard condition	[m³/h i.N.]	
volume flow rate in operation	[m³/h i.B.]	
operation temperature	[°C]	
design temperature	[°C]	
dust kind		
bulk density	[g/m³]	
raw gas dust load	[g/m³]	
residual dust concentration	[mg/m³]	
Ex-requirements	yes/no	
installation	inside/ outside	
power supply	[V]	
pressure in operation		
shock resistant to		
filter as top mounted		
filter with hopper		
filter with screw conveyor		
dust discharge
